THE TALLEST BUILDING

Some Details Of The Sixty Two Story Structure For New York City.

NEW YORK July 2.—The huge new home of the Equitable Life Assurance Society, the plans for which are in the hands of Superintendent Murphy of the Bureau of Buildings, will tower so far above the adjacent building as to completely dwarf them. Among real estate experts, it was said yesterday that plans for a sixty-two story structure were filed now in order to circumvent any legislation which might be recommended by the commission appointed by the board of aldermen for the restriction of the height of buildings.

The drawing of the plans alone was a stupendous task. Draughtsmen say it must have taken 150 men six months at least to overcome the difficulties in the way of such a structure. The estimated cost of this task by itself is \$250,000. The great files of drawings number seventy in all,

each one measuring four by five feet. Engineer J. P. Whiskman to whom was assigned the difficult task of examining and approving them, will be busy for nearly a month before he passes upon them.

A feature of the plans is the elaborate system of wind braces which will affect every floor from the sixty second story to the ground.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.00.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 believe it would have saved me a hundred-dollar doctor's bill." Sold by Frank Hart and leading druggists.

BATTLESHIPS ASSEMBLE

Will Start From San Francisco To Hampton Roads July 7.

SAN FRANCISCO, July 2.—All of the sixteen battleships which will compose the Atlantic fleet when it starts on July 7 for the voyage from San Francisco to Hampton Roads are now assembled in the harbor here. The arrival today of the battleships Virginia, Rhode Island and Kearsarge completed the number. The Wisconsin and Missouri are at Mara Island but will come here tomorrow and then everything will be in readiness for the start. The Colugo, supply ship and Relief, hospital ship, sailed yesterday for Honolulu. Sixty Annapolis graduates arrived from the east and joined the men on the fleet.

The Pacific squadron consisting of the cruiser Tennessee, Washington, and California, sailed south on a cruise along the coast last night towing the torpedo destroyers Perry, Preble and Farragut.

ARREST SPY

Said To Be An American Citizen, Held By Guatemala Government.

SAN FRANCISCO, July 2.—Passengers who arrived from Southern ports on the steamer City of Sydney yesterday tell of the arrest by officials of the Guatemala government of E. Barrington, said to be an American citizen, as a spy. The arrest was made at San Jose, de Guatemala, when Barrington went ashore in that city from the City of Sydney Barrington went to Central America from New York, many months ago. Passengers who tell of the arrest say that they expect to hear that he has been put to death, as they claim that the evidence against him was plain, he having papers in his possession when taken which prove beyond a doubt that he was a spy from Salvador. The papers they say proved him also to be in a conspiracy against President Cabrera.

PEOPLE WHO DIE AT SEA

Man Suing Steamship Company For Burying Wife At Sea.

NEW YORK, July 2.—A case just instituted in the U. S. Circuit Court brings up the unsettled point as to what rights steamship officers have over the bodies of passengers who die at sea. Chalmers Prentice is suing the North German Lloyd Steamship Company for \$250,000 damages for burying his wife at sea, instead of embalming the body and bringing it to New York as the captain had promised to do, Prentice alleges.

The attorneys for Mr. Prentice assert that the Cap Morganstern had the body buried at sea because an Italian Mexican officer who was accompanying some emigrants that according to some laws the body must be buried at sea.

Attorneys for the Steamboat Company have not filed their answer to the complaint.

It is not contended, however, that Mrs. Prentice died of a contagious disease.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by Frank Hart and leading druggists.
